INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Learning Excellence Foundation of West Broward County, Inc.
Weston, Florida

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of Imagine Charter School at Weston (the "School"), a component unit of the School Board of Broward County, Florida and a Division of Learning Excellence Foundation of West Broward County, Inc. (the "Charterholder"), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the School, as of June 30, 2017, and the respective changes in financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in Note A-1, the accompanying financial statements referred to above present only the financial position of the School at June 30, 2017, and the results of its operation for the year then ended, and is not intended to be a complete presentation of the Charterholder.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 12, 2017, on our consideration of the School's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control over financial reporting and compliance.

Management's Discussion and Analysis

As management of Imagine Charter School at Weston (the "School"), a Division of Learning Excellence Foundation of West Broward County, Inc. (the "Charterholder)," and a component unit of the School Board of Broward County, Florida, we offer readers of the School's financial statements this narrative overview and analysis of the financial activities of the School for the fiscal year ended June 30, 2017 to (a) assist the reader in focusing on significant financial issues, (b) provide an overview and analysis of the School's financial activities, (c) identify changes in the School's financial position, (d) identify material deviations from the approved budget, and (e) highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) is intended to highlight significant transactions, events, and conditions, it should be considered in conjunction with the basic financial statements as listed on the table of contents.

Financial Highlights

- The assets of the School exceeded its liabilities at the close of the most recent fiscal year by \$1,074,284 (net position).
- The School's total net position increased by \$148,574.
- As of the close of the current fiscal year, the School's governmental funds reported combined ending fund balances of \$662,625.
- At the end of the current fiscal year, the unassigned fund balance of the general fund was \$392,810.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the School's basic financial statements. The School's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the School's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the School's assets, liabilities, and deferred outflow/inflows of resources with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the School is improving or deteriorating.

The statement of activities presents information showing how the School's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected funding and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the School that are principally supported by district, state, and federal funding (governmental activities). Basic instruction, exceptional instruction, and school administration are examples of the School's governmental activities.

The government-wide financial statements include only the School itself, which is a component unit of the School Board of Broward County, Florida. The School Board of Broward County, Florida includes the operations of the School in their operational results.

The government-wide financial statements can be found listed on the table of contents of this report.

Fund Financial Statements. A fund is a collection of related accounts grouped together to maintain control over resources that have been segregated for specific activities or objectives. The School, like state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the operations of the School are presented in governmental funds only.

Governmental Funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The School maintains two individual governmental funds. Information is presented separately in the governmental fund balance sheet and statement of revenues, expenditures and changes in fund balances. The general fund and capital outlay fund are considered to be major funds.

The basic governmental fund financial statements can be found as listed on the table of contents of this report.

The School adopts an annual appropriated budget for its entire operations. Budgetary comparison schedules and a note have been provided to demonstrate compliance with this budget and can be found as listed on the table of contents of this report.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found listed on the table of contents of this report.

Government-Wide Financial Analysis

As noted previously, net position may serve over time as a useful indicator of the School's financial position. In the case of the School, assets exceeded liabilities by \$1,074,284 and \$925,710 (net position) respectively, for the years ended June 30, 2017 and 2016.

The School's net position reflects its net investment in capital assets (e.g., buildings and fixed equipment, furniture, fixtures and equipment, information technology equipment, audio visual equipment, computer software, and improvements other than building). The School uses these capital assets to provide services to students; consequently, these assets are not available for future spending.

Comparison of the condensed statement of net position and the statement of activities are provided below.

**The 2016 condensed statements of net position and activities were the result of combining amounts from the middle and elementary school's 2016 financial statements for a more reasonable analysis of the 2017 and 2016 years.*

Current assets decreased primarily as a result of timing of inflows and outflows of cash. The increases in capital assets, net of accumulated depreciation is largely due to a purchase of playground equipment. The decrease in current and overall liabilities is from the payments on the note payable.

**The 2016 condensed statements of net position and activities were the result of combining amounts from the middle and elementary school's 2016 financial statements for a more reasonable analysis of the 2017 and 2016 years.*

The increase in state passed through school district revenue is a result of the elementary and middle school consolidation which resulted in a decrease in the district administration fees and allowed more revenue to flow to the School. The increase in instruction is due to staff increase and salary bonuses. The School had an increase in 2.5 teaching positions. Additionally teachers were awarded "pay for performance" bonuses as well as an additional \$18,000 in school recognition awards which increased their salaries.

Financial Analysis of the Government's Funds

As noted previously, the School uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the School's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the School's financing requirements. In particular, unassigned fund balance may serve as a useful measure of the School's net resources available for spending at the end of the fiscal year.

The general fund is the chief operating fund of the School. At the end of the current fiscal year, the nonspendable fund balance reserved for prepaid expenses and deposits was \$259,835 and \$9,980, respectively. The fund balance of the School's general fund increased by \$24,086 during the current fiscal year.

General Fund Budgetary Highlights

In the Schedule of Revenues, Expenditures, and Changes in Fund Balance reports starting on page 26 we compare the actual revenues and expenditures to the budgeted revenues and expenditures. For the year ended June 30, 2017, the actual revenues and expenditures matched the budgeted amounts.

Capital Asset and Debt Administration

Capital Assets. The School's net investment in capital assets for its governmental activities as of June 30, 2017, amounts to \$411,659. This net investment in capital assets includes buildings and fixed equipment, furniture, fixtures and equipment, information technology equipment, audio visual equipment, computer software, and improvements other than building. Additional information on the School's capital assets can be found in Note C of this report.

Debt Administration. The School's did not have any long-term debt at June 30, 2017. The School entered into a promissory note with the management company to payoff past indebtedness in relation to management services and working capital advances incurred prior to June 30, 2005. During the year the School reduced all remaining debt by \$276,002. Additional information on the School's long-term obligations can be found in Note D.

Economic Factors and Future Enrollment

A majority of the School's funding is determined by the number of enrolled students. The School is forecasting enrollment to increase to approximately 938 total students for the year ended June 30, 2018.

Request for Information

This financial report is designed to provide a general overview of the School's finances for all those with an interest. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to 2500 Glades Circle, Weston, Florida 33327.

However, in the statement of activities, the cost of those assets is
allocated over their estimated useful lives and reported as depreciation
expense.

NOTES TO FINANCIAL STATEMENTS

June 30, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

1. Reporting entity

Imagine Charter School at Weston (the "School") is a Division of Learning Excellence Foundation of West Broward County, Inc. (the "Charterholder"), which is a not-for-profit corporation organized pursuant to Chapter 617, Florida Statutes, the Florida Not-For-Profit Corporation Act, and Section 1002.33, Florida Statutes. The School provides education services to students in kindergarten to eighth grade. The governing body of the School is the Board of Directors (the "Board"), which is composed of ten members. The financial information presented is that of Imagine Charter School at Weston only. The entire workforce is provided by the operating company; therefore, all benefits are provided by the operating company.

The general operating authority of the School is contained in Section 1002.33, Florida Statutes. The School operates under a charter of the sponsoring school district, which is the School Board of Broward County, Florida (the "District"). The current charter is effective until June 30, 2025, and may be renewed in increments of five years by mutual agreement between the School and the District. At the end of the term of the charter, the District may choose not to renew the charter under grounds specified in the charter in which case the District is required to notify the School in writing at least 90 days prior to the charter's expiration. During the term of the charter, the District may also terminate the charter if good cause is shown. Imagine Charter School at Weston is considered a component unit of the School Board of Broward County, Florida.

Effective July 1, 2016, Imagine Charter School at Weston and Imagine Middle School West combined to establish a consolidated K-8 Charter School. As of effective date, the School shall be known as Imagine Charter School at Weston. See note A-15 for additional information.

2. Government-wide and fund financial statements

The government-wide financial statements consist of a statement of net position and a statement of activities. These statements report information on all of the nonfiduciary activities of the School. As part of the consolidation process, all interfund activities are eliminated from these statements. Both statements report only governmental activities as the School does not engage in any business type activities.

Net position, the difference between assets, liabilities, and deferred outflows and inflows of resources, as presented in the statement of net position, is subdivided into three categories: net investment in capital assets, restricted, and unrestricted. Net position is reported as restricted when constraints are imposed on the use of the amounts either externally by creditors, grantors, contributors, or laws or regulations of other governments or enabling legislation.

2. Government-wide and fund financial statements (continued)

The statement of activities presents a comparison between the direct and indirect expenses of a given function and its program revenues, and displays the extent to which each function contributes to the change in net position for the fiscal year. Direct expenses are those that are clearly identifiable to a specific function.

Indirect expenses are costs the School has allocated to various functions. Program revenues consist of charges for services, operating grants and contributions, and capital grants and contributions.

Charges for services refer to amounts received from those who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment. Grants and contributions consist of revenues that are restricted to meeting the operational or capital requirements of a particular function. Revenues not classified as program revenues are reported as general revenues.

Separate fund financial statements report detailed information about the School's governmental funds. The focus of the governmental fund financial statements is on major funds. Therefore, major funds are reported in separate columns on the fund financial statements. Two of the School's funds were deemed to be major. Reconciliation is provided that converts the results of governmental fund accounting to the government-wide presentation.

3. Measurement focus, basis of accounting, and financial statement presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized in the period earned and expenses are recognized when a liability is incurred.

All governmental fund financial statements are reported using a current financial resources measurement focus on a modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues, except for certain grant revenues, are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Available means collectible within the current period, or soon enough thereafter to be used to pay liabilities of the current period. For this purpose, the School considers revenues to be available if they are collected within sixty days of the current fiscal period. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for federal, state, and other grant resources, revenue is recognized at the time the expenditure is made.

Under the modified accrual basis of accounting, expenditures are generally recorded when the related fund liability is incurred. However, principal and interest on general long-term debt is recorded as an expenditure only when payment is due.

3. Measurement focus, basis of accounting, and financial statement presentation (continued)

The School's financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board. Accordingly, the financial statements are organized on the basis of funds. A fund is an accounting entity having a self-balancing set of accounts for recording assets, liabilities, fund equity, revenues, expenditures, and other financing sources and uses.

Resources are allocated to and accounted for in individual funds based on the purpose for which they are to be spent and the means by which spending activities are controlled. The School reports the following major governmental funds:

General Fund - the general operating fund of the School and is used to account for all financial resources not required to be accounted for in another fund.

Capital Outlay Fund - in accordance with guidelines established by Broward County District School Board, FL this fund accounts for all resources used for the leasing or acquisition of capital facilities by the School to the extent funded by capital outlay funds.

4. Cash

Cash is made up of cash on hand at the School and a checking account held at a financial institution. The School has no cash equivalents.

5. Receivables

Receivables typically include amounts due from other schools, other agencies, the operating company, and individuals for other programs. The School's management determined that 100% of receivables are fully collectible, based on the prior year experience; therefore, no allowance for doubtful accounts has been provided.

6. Interfund receivables and payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as due to/due from other funds.

7. Prepaid expenses

Payments made to vendors for services that will benefit periods beyond June 30, 2017, are recorded as prepaid expenses in both government-wide and fund financial statement.

NOTES TO FINANCIAL STATEMENTS

June 30, 2017

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

8. Capital assets

Capital assets are reported in the applicable governmental columns on the government-wide financial statements. Capital assets are defined by the School as assets with an initial individual cost of more than \$750 and an estimated useful life of more than two years. Such assets are recorded at historical cost. Donated capital assets are recorded at their estimated fair values at the date of donation. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Capital assets of the School are depreciated using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Buildings and fixed equipment	7 - 40
Furniture, fixtures and equipment	7 - 10
Information technology equipment	5 - 7
Audio visual equipment	7
Computer software	3 - 7
Improvements other than building	7 - 40

9. Unearned revenue

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied. At the end of the current fiscal year, the School had \$24,475 in unearned revenue.

10. Long-term obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. In the fund financial statements, governmental funds report the face amount of debt issued as other financing sources and payments of debt principal as debt service expenditures.

11. Revenue sources

Revenues for current operations are received primarily from the State of Florida through the District pursuant to the funding provisions included in the School's charter based on full time equivalent ("FTE") students. Funding for the School is adjusted during the year to reflect revised calculations of actual weighted FTE students reported by the School during the designated FTE student survey periods.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

11. Revenue sources (continued)

The School receives federal awards for the enhancement of various educational programs. This assistance is generally based on applications submitted to and approved by various granting agencies. These federal awards may have requirements whereby the issuance of grant funds are withheld until qualifying expenditures are incurred. Revenues for these awards are recognized only to the extent that eligible expenditures have been incurred.

Additionally, other revenues may be derived from various fundraising activities and certain other programs.

12. Use of estimates

The process of preparing financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions regarding certain types of assets, liabilities, revenues and expenses. Such estimates primarily relates to unsettled transactions and events as of the date of the financial statements. Accordingly, upon settlement, actual results may differ from estimated amounts.

13. Income taxes

The School is exempt from income taxes under Section 501(c)(3) of the Internal Revenue Code and applicable state law.

The School recognizes the financial statement effects from a tax position only if it is more likely than not that the tax position will be sustained on examination by taxing authorities, based on the technical merits of the position. Examples of tax positions include the tax-exempt status of the School and various positions related to the potential sources of unrelated business taxable income. The assessment of the technical merits of a tax position is a matter of judgment. The School believes that all of its tax positions are more likely than not to be sustained upon examination.

The School files Form 990 in the U.S. federal jurisdiction. The School is generally no longer subject to examination by the Internal Revenue Service three years after a return was due or filed.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

14. Fund balance classification

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the School is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

Nonspendable fund balance - amounts that are not in a spendable form (such as inventory and prepaid expense) or are required to be maintained intact.

Restricted fund balance - amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.

Committed fund balance - amounts constrained to specific purposes by the School itself, using its highest level of decision-making authority (i.e., Board of Directors). To be reported as committed, amounts cannot be used for any other purpose unless the School takes the same highest level action to remove or change the constraint.

Assigned fund balance - amounts the School intends to use for a specific purpose. Intent can be expressed by the Board of Directors or by an official or body to which the Board of Directors delegates the authority.

Unassigned fund balance - amounts that are available for any purpose. No other fund except the general fund can report positive amounts of unassigned fund balance.

The School would typically use restricted fund balances first, followed by committed resources, and then assigned resources, as appropriate opportunities arise, but reserves the right to selectively spend unassigned resources first to defer the use of these other classified funds.

15. Merger

Imagine Charter School at Weston (elementary school) and Imagine Middle School West merged on July 1, 2016, into one entity Imagine Charter School at Weston. A *government merger* is a government combination of legally separate entities in which no significant consideration is exchanged and one or more legally separate governments or nongovernment entities cease to exist and their operations are absorbed into, and provided by, one or more continuing governments.

Florida Statute 1002.33(2)(d) allows for high performance charter schools to merge. The merger allows for the School to expand service to the community for K-8 as one school.

NOTE B - CASH

Custodial credit risk - Custodial credit risk is the risk that in the event of bank failure, the School's deposits may not be returned to it. The School does not have a formal policy regarding custodial credit risk. The bank balance of the School's deposits was \$1,153,822 at June 30, 2017. The deposits are insured by the FDIC up to \$250,000 per entity. Monies invested in amounts greater than the insurance coverage are secured by the qualified public depositories pledging securities with the State Treasurer in such amounts required by the Florida Security for Public Deposits Act. In the event of a default or insolvency of a qualified public depositor, the State Treasurer will implement procedures for payment of losses according to the validated claims of the School pursuant to Section 280.08, Florida Statutes. As of June 30, 2017, none of the School's balances held in banks were exposed to custodial credit risk.

NOTE F - COMMITMENTS AND CONTINGENCIES

1. Management service contract

An amended and restated charter school operating agreement was made and entered into on July 1, 2009. This agreement calls for an indirect cost allocation equal to 8.63% of charter school revenue. The total allocation charged to operations for the year ended June 30, 2017 totaled \$594,506.

The agreement requires the operating company to deposit advances to cover insufficient funds in the operating account to pay operating expenses. Such advances are subject to reimbursement, with interest, if funds are available in the current fiscal year. The operating advances will not be deemed long-term indebtedness of the School. For the year ended June 30, 2017, there was no contribution to the School.

2. Facilities expense

The School has committed to pay a facility allocation fee to the operating company for the building where the School is located. The current year facility lease expense totaled \$1,682,642. A portion of the facility use fee, in the amount of \$270,190, was reimbursed through the capital outlay fund. The duration of the agreement is effective through the length of the School's charter which is currently up for renewal on June 30, 2025. The future minimum lease payment for the year ended June 30, 2018 is \$1,710,367.

NOTE G - RELATED PARTIES

1. Due (to)/from operating company

The School has entered into multiple agreements with the operating company. The due (to)/from operating company activity consists of the following:

NOTE H - RISK MANAGEMENT

The School is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; general liabilities; and natural disasters for which the School carries commercial liability insurance. Under the plan for property insurance, the School's liability is \$25,000 per occurrence. There have been no significant reductions in insurance coverage during fiscal year 2017. Settled claims resulting from the risks described above have not exceeded the insurance coverage during the previous three years.

NOTE I - SUBSEQUENT EVENTS

The School has evaluated subsequent events through October 12, 2017, the date at which the financial statements were available for issuance and has determined that there are no material subsequent events that would require additional disclosures in the financial statements.

NOTE A - BUDGETARY INFORMATION

The School's annual budgets are adopted for the entire operations at the combined governmental level and may be amended by the Board. Since the budgetary basis differs from accounting principles generally accepted in the United States of America ("GAAP"), budget and actual amounts in the accompanying required supplementary information are presented on the budgetary basis. Reconciliation to the excess of revenues over expenditures presented in conformity with GAAP is set forth in the adjustments to the required supplementary information.

Although budgets are adopted for the entire operation, budgetary comparisons have been presented for the general fund and each major fund for which a legally adopted budget exists.

Budgets are presented on the full accrual basis of accounting. The legal level of budgetary control is the fund level.

COMPLIANCE INFORMATION

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Board of Directors
Learning Excellence Foundation of West Broward County, Inc.
Weston, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Imagine Charter School at Weston (the "School"), a component unit of the School Board of Broward County, Florida and a Division of Learning Excellence Foundation of West Broward County, Inc. (the "Charterholder"), as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School's basic financial statements, and have issued our report thereon dated October 12, 2017.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School's internal control. Accordingly, we do not express an opinion on the effectiveness of the School's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

MANAGEMENT LETTER

To the Board of Directors
Learning Excellence Foundation of West Broward County, Inc.
Weston, Florida

Report on the Financial Statements

We have audited the financial statements of Imagine Charter School at Weston (the "School"), a component unit of the School Board of Broward County, Florida and a Division of Learning Excellence Foundation of West Broward County, Inc. (the "Charterholder"), as of and for the fiscal year ended June 30, 2017, and have issued our report thereon dated October 12, 2017.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and Chapter 10.850, Rules of the Auditor General.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and on Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*. Disclosures in those reports and schedule, which are dated October 12, 2017, should be considered in conjunction with this management letter.

Prior Audit Findings

Section 10.854(1)(e)1., Rules of the Auditor General, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report.

Official Title

Section 10.854(1)(e)5, Rules of the Auditor General, requires the name or official title of the entity. The official title of the school is *Imagine Charter School at Weston*, which is a Division of Learning Excellence Foundation of West Broward, Inc., which is a not-for-profit corporation organized pursuant to Chapter 617, Florida Statutes, the Florida Not-For-Profit Corporation Act, and Section 1002.33, Florida Statutes.

Financial Condition and Management

Sections 10.854(1)(e)2., Rules of the Auditor General, requires that we report the results of our determination as to whether or not the School has met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific condition(s) met. In connection with our audit, we determined that the School did not meet any of the conditions described in Section 218.503(1), Florida Statutes.

Pursuant to Sections 10.854(1)(e)6.a. and 10.855(12), Rules of the Auditor General, we applied financial condition assessment procedures for the School. It is management's responsibility to monitor the School's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by same.

Section 10.854(1)(e)3., Rules of the Auditor General, requires that we address in the management letter any recommendations to improve financial management. In connection with our audit, we had no recommendations.

Transparency

Sections 10.854(1)(e)7 and 10.855(13), Rules of the Auditor General, require that we apply appropriate procedures to determine whether the School maintains on its Web site the information specified in Section 1002.33(9)(p), Florida Statutes. In connection with our audit, we determined that the School maintained on its website the information specified in Section 1002.33(9)(p), Florida Statutes.

Additional Matters

Section 10.854(1)(e)4., Rules of the Auditor General, requires us to communicate noncompliance with provisions of contracts or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but warrants the attention of those charged with governance. In connection with our audit, we did not have any such items.

Purpose of this Letter

Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representatives, the Florida Auditor General, Federal and other granting agencies, School's management, Board of Directors, others within the School, the School Board of Broward County, Florida, and is not intended to be and should not be used by anyone other than these specified parties.

PRIOR YEAR MANAGEMENT FINDINGS, RECOMMENDATIONS, AND RESPONSES

June 30, 2017

Prior Year Management Findings, Recommendations, and Responses

**2016-001 Payroll accrual
*Material weakness***

Condition: During our audit testing, it was discovered that the School's payroll accrual balance included accruals from prior fiscal years that were never reversed.

Auditor's recommendation: The School should institute a procedure which will ensure the payroll accrual balance is reconciled and all payroll accrual balances are reversed in the subsequent period.

Status: Cleared.
